May 28, 2024

Chartiers Valley School District
2030 Swallow Hill Road
Pittsburgh, PA 15220-1699

Attention: Pete Celender

Reference: High School; Standby Power Feeder and Sub Panel.

Hello Pete,

The following is our proposal to provide all labor, materials, tools, equipment, insurance, and supervision necessary to perform the electrical installation work to extend a new single-phase 480v feeder circuit to a 25 KVA transformer and install a 240/120v Standby subpanel dedicated to refrigeration equipment at the Chartiers Valley High School. The price is based on a site visit attended by our Josh George who provided labor and material data for this estimate.

Basis of Payment: Lump Sum

Labor:	\$ 19,506.00
Material:	\$ 8,732.00
<u>Total Base Project Estimate:</u>	<u>\$ 28,238.00</u>

*HS generator
to the building*

The following Notes and Exceptions Apply:

- Electrical permit and inspection fees are EXCLUDED.
- The customer will provide clear access to the existing Standby Electrical ATS & service panel.
- All raceways, equipment and conductors to NEC requirements.
- NO painting, patching, repairs, finishes or cleaning.
- ***This quote is valid until June 28, 2023.***
- All work to be performed on a 40-hour work week; no premium time is included.

Thank you for providing this opportunity to provide our services. Please call with any questions, or to discuss the project proposal presented here. I hope to hear from you soon.

Respectfully,

James Falcsik

This quotation is based and formulated on the "scope of work" as presented by the owners engineer in the "specifications". The "scope of work" as represented during the quotation process may not contain all work needed to be performed to provide a complete project. Upon "discovery" of work outside the original scope; IEC and its representatives shall immediately inform the owner's engineer of these additions to the scope and provide costs necessary to complete the extras. These costs may include but not be limited to "extra material, labor, logistics, and safety procedures". Also, deviations from schedule or delays in being able to complete the work will result in more man-hours to complete. This quotation is considered an "Estimate" only and not a firm Lump Sum proposal. Estimates used for RFA or project planning without written scopes of work or formal drawings and documentation are considered "budget estimates" only. Authority Having Jurisdiction (AHJ) is assumed to be the customer if a third party AHJ is not identified for this project. All work performed will be to minimum NEC requirements unless directed otherwise by the AHJ; application of alternate designs or standards is exclusively the responsibility of the AHJ or the customer assuming this role.
